

CERTIFICATION OF ELECTROTECHNICAL PRODUCTS
CARRIED OUT IN THE ŁUKASIEWICZ RESEARCH NETWORK
– INSTITUTE OF ELECTRICAL ENGINEERING

Elżbieta OGONOWSKA-SCHWEITZER

ABSTRACT *The paper presents the process of voluntary certification of electrotechnical products performed by a competent conformity assessment body independent of the supplier and the recipient. The stages of the certification process implemented in accordance with the type 1a scheme are described. Product groups that are in the scope of certification of a conformity assessment body are given.*
